BROYHILL PREMIER

Sculptra Walnut Chest

American mid-century design. Sculptural detail. Everyday purpose.

40.25" W | 17" D | 42.5" H • FIVE DRAWERS

A recognizable chapter in American modernism

Introduced in 1957 as part of Broyhill Premier, Sculptra helped bring the clean lines and lighter proportions of Scandinavian-influenced modern design into American homes. This vintage chest carries the Sculptra by Broyhill Premier label, connecting its distinctive form to the collection’s design history.

Why it belongs in a considered collection

• **Signature style:** framed upper drawer fronts, oval recessed pulls, warm walnut grain and an airy stretcher base.
• **Practical craftsmanship:** wood drawer interiors, two smaller upper drawers and three broad lower drawers; the upper full-width drawer includes organizing dividers.
• **Versatile presence:** substantial storage in a shallow footprint for a bedroom, guest room or thoughtfully furnished living space.

History: Broyhill Furniture, About Us; Mad for Mid-Century, Sculptra Collection.
