OLD DOGS, NEW TRICKS RESTORATIONS

Paul McCobb for Lane

DELINEATOR WALNUT & CANE TABLES

Matching pair | Model 987-18 | American Mid-Century Modern

Stamped Lane, Altavista, Virginia
Style 987-18 | Serial 369030
Photographed date code: March 9, 1963

DOCUMENTED DESIGN

Designed by Paul McCobb, an influential American modernist whose work appeared in MoMA's *Good Design* exhibitions. Lane's original Delineator catalog credits McCobb and documents this exact model and size. Its restrained lines, slim legs and open cane shelf express his thoughtful approach to proportion and everyday living.

RESTORED WITH CARE

The tabletops were chemically stripped and sanded to reduce surface imperfections, then finished with four protective topcoats. The cane shelves are in excellent condition. Beautiful walnut grain and mitered top borders give the pair warmth and character; minor vintage imperfections may remain.

20" W x 20" D x 15" H EACH

Low side tables, occasional tables, or a paired coffee-table arrangement.

Offered as a pair. Message for pricing.

Design documentation: Original Lane Delineator manufacturer's catalog, preserved by Wright Auctions.
